

## General

There are two tasks to proceed

## Tasks 1

We are asking to create responsive HTML page according to design below.

1. Build the responsive page, use HTML5 and CSS3.
2. Use bootstrap

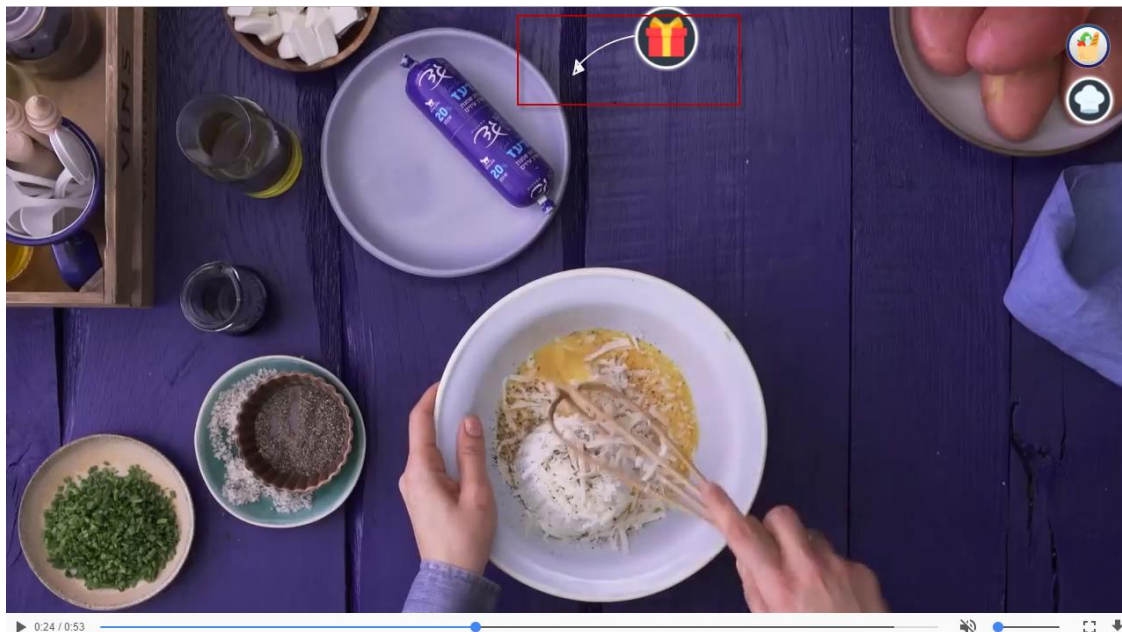

## Tasks 2

Please create simple HTML page and display the video from the following source:

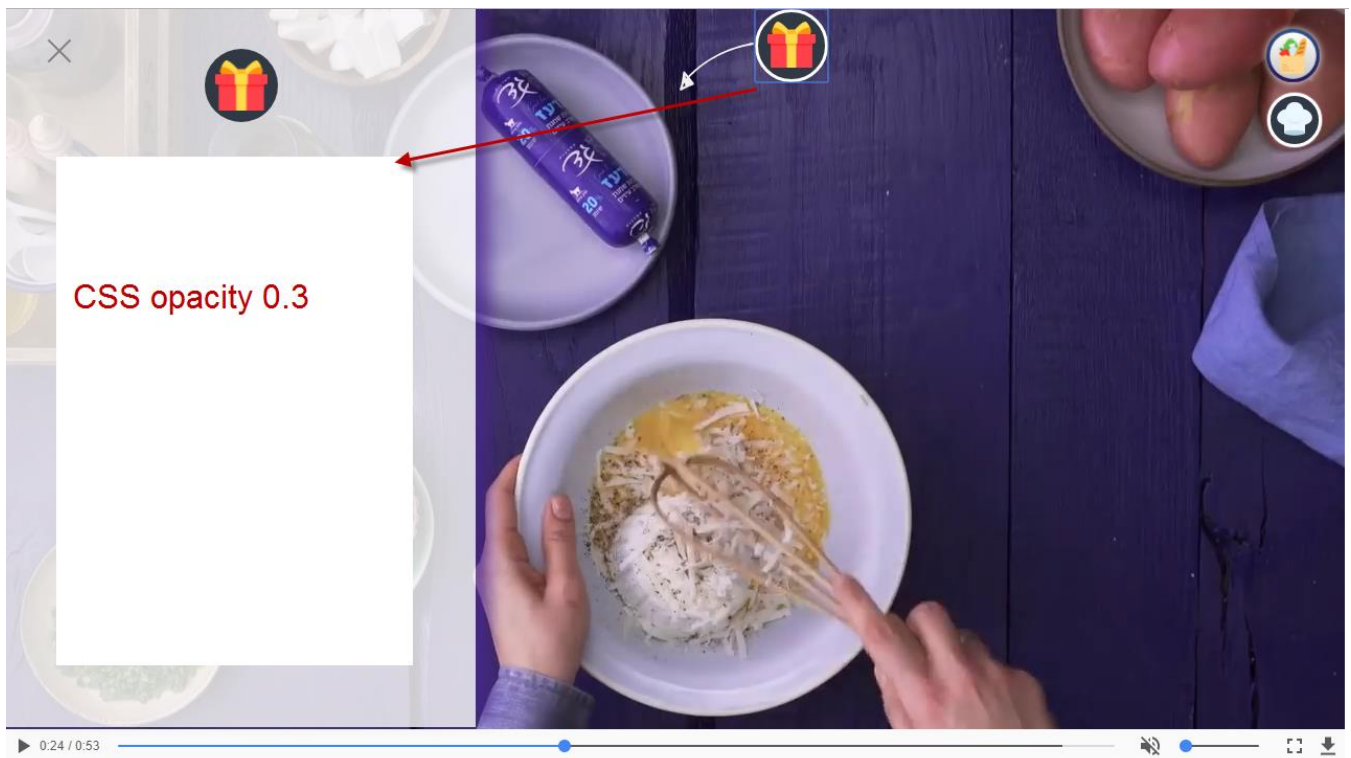

<http://crazysob.bekey.io/osemrecipe/videodemo/video/onion.mp4>

At the 24<sup>th</sup> second you need to display the icon with arrow pointing on product on plate as shown below:

Icon should disappear after 3 seconds once the product is not displayed in video.

Once icon clicked you should open the popup on the left part of the screen as shown below:

When the popup open the video should stop.

Good luck!
